Completed in 2020

### About Me

Hello there! I'm Ishan, a passionate and highly motivated MERN (MongoDB, Express.js, React.js, Node.js) stack developer with a keen interest in creating robust and scalable web applications. Currently pursuing B.Tech in CSE at JECRC University, I also have a basic understanding of DSA concepts in C++ as the core language.

### Projects

#### Full Stack Blog App 2023

Key Features:

- User Authentication using JWT and MongoDB
- CRUD operations of blog posts only if user is authenticated as an author.
- Image File uploads for profile picture and blog thumbnail using Multer Middleware.
- Password Hashing using bcryptJS
- Responsive Web Design
- Tech Stack : ReactJS with Vite, ExpressJS for backend, MongoDB for storage, JWT, axios, multer and bcrypt.
